RESUME TRIAL OF BROTHERS

New Members of Road Commission Accept Positions

Guy and Clyde Nelson Are Charged With Ogdén Man's Murder

SALT LAKE, April 15.—Governor R. Mabey announced today that he had communicated with three new members of the state road commission, who he hoped, would accept positions of members of the state road commission.

Of these have accepted so far, Gordon G. Peterson, Provo, and Henry D. Blood, of Kayville, formerly of the public utilities commission. The name of the third member will be made public as soon as he accepts the position.

The governor's announcement following the request yesterday for resignations of three members of the road commission. Chairman N. C. Paulson, George D. Castro and Ira Browning, resigning in Carbon county, and request for his resignation was forwarded.

Resignations are to take effect immediately.

IDAHO FALLS, Idaho, April 15.—The trial of Guy and Clyde Nelson, charged with the murder of S. A. Browning, formerly of Ogdén, Utah, was resumed yesterday before Judge Gwinn. It had been interrupted the day before by the illness of Prosecuting Attorney C. E. Crowley, who had recovered sufficiently yesterday to resume his duties.

Upon the motion of Attorney Crowley, Judge Gwinn ordered an amendment to the murder complaint, changing the date of the alleged crime to read "on or about November 26, 1921," instead of "on or about November 26, 1922," as was set forth in that instrument.

BOX ELDER SUIT ORDERED RETRIED

SALT LAKE, April 15.—The case of Alma Iverson and Edward Jaspersen against Calvin Carrington and other cattle owners whom they are suing for \$1164.50 alleged to be due for cattle feed has been sent back from the supreme court for retrial in the district court for Box Elder county.

The jury at the original trial in the district court returned no cause of action on this count, but allowed \$295.40 for corn and syrup fed the cattle, on a second count. On the defendant's counterclaim for \$10,000 damages to the cattle by reason of failure to feed the natural grass hay early enough in the winter, the jury returned a verdict of no cause of action.

The supreme court holds that the district court exceeded its rights in its instructions to the jury, and that the minds of the jurors may have been confused thereby. The case will be retried, except as to the corn and syrup feature, in which their verdict is allowed to stand.

MURDERED UTAH REPUTED GUNMAN

MOAB, April 15.—James Nash, cattleman of Monticello, who was shot to death Thursday morning in a cabin at the head of Monticello canyon in an argument which arose in a card game, was one of San Juan county's reputed gunmen.

Nash had the reputation among old-timers of being one of the quickest men "on the draw" ever to handle a pistol. He was also an expert marksman.

District Attorney Dalton, who has been attending court here, left yesterday for Monticello to investigate the killing of Nash. Irving E. Dunham, who rode into Monticello and gave himself up to the sheriff, saying he had killed Nash, still is in jail there. His preliminary hearing is set for Monday.

The only known eyewitness to the shooting, a man named Perkins, accompanied the body of Nash to Dolores, Colo., and will not return to Monticello until Sunday night.

WINTER WHEAT IN IDAHO NEAR NORMAL

BOISE, Idaho, April 15.—The 457,000 acres of winter wheat seeded in Idaho last fall showed a condition April 1 of 92 per cent of normal, according to Julius H. Jacobson, agricultural statistician of the Idaho crop reporting service. This is a gain of 11 points since December, he said. A year ago the condition was 97 per cent of normal.

Mr. Jacobson declared there is an abundance of farm laborers in Idaho, with farmers mostly unable to hire because of inability to finance their labor requirements.

The condition of the Idaho crop April 1 was 96 per cent of normal, one point lower than a year ago, but higher by one point than the 10-year average for that date.

Paint Up and Lock Up

YOU may clean up a tramp and put his rags back on him and he will still hang his head. But give him new clothes and he will look up, with pride and self-respect. You have publicly committed him to cleanliness and respectability.

This philosophy will apply to many owners of faded and run-down homes. When they clean up the yard, and paint up the house, they look up with pride and satisfaction.

And the neighbors follow their example.

It's as poor reasoning to clean up and neglect the painting as it is to wear a clean shave, and a dirty collar. There's nothing in either to inspire self-respect or the respect of others.

Consult us about your painting right now during this general cleaning. Let's work together and when the clean up and paint up is finished, this town will be something to crow about.

Let's keep up with the procession. Besides it's cheaper to paint than not to paint.

We sell reliable brands of painting and varnishing materials.

SALT LAKE COUNTY TO REDUCE WAGES

SALT LAKE, April 15.—Salt Lake county will cut the salaries of its employees within the next few days to the approximate level of January, 1920, it is understood, as the result of a series of meetings held during the last several months by members of the county commission.

The reductions planned by the commissioners will save the taxpayers about \$25,000 or \$30,000 a year, according to estimates made yesterday. The average cut will be about 5 per cent if the present plans of the commission are carried out.

Salaries of chief deputies will be standardized between \$175 and \$185. Salaries of clerks and stenographers generally will be reduced, although it is said to be the intention to maintain the present scale for deputies in the county clerk's office.

Deputy sheriffs will be among those to suffer a slight reduction if the commission carries out its present plans. In some instances salaries will be raised to conform with those paid employees doing similar work in different departments, and in others no changes will be made. Wages paid road labor will not be cut, it is reported. Laborers engaged in this work are now paid \$3 a day in comparison with \$4 previous to February 1, 1921, and a man and team is now paid for at the rate of \$5 a day instead of \$3. These adjustments were made in accordance with wages paid by the farmers throughout the county.

HYPOCRISY BLAMED FOR SICK AMERICA

SALT LAKE, April 15.—Speaking before members of the Progressive Business club yesterday, the Rev. Elmer I. Goshen, pastor of the First Congregational church declared, "America is suffering from a disease brought on by cowardice and hypocrisy. Our business men generally are cowards, afraid to say or do anything that is outside the beaten path. The general tendency is to try to please everybody by not saying or doing anything that will displease anybody."

Mr. Goshen criticized the prohibition law and the anti-cigarette law and others, declaring that these laws were causing the people to hold all laws in disrespect throughout the country. He declared that all of the clubs of Salt Lake, while they were serving a good end in the good old-fashioned days had done nothing distinctive during the last year. He said they had done nothing that could not have been done without them.

"We had a legislature on the hill here in Utah that could not pass civil government examinations and the members of that body passed laws that have made us the laughing stock of the country," Dr. Goshen said. "We cannot make a Sunday school out of this country. You have been trying with prohibition and, instead of 62 saloons you have about 400 in Salt Lake City. The use of opium and narcotics has increased about 500 per cent during the last ten years."

SUICIDE CLOTHED ENTIRELY IN BLACK

SAN FRANCISCO, April 15.—The body of S. A. Lawrence, 75 years old, formerly a Washington, D. C., magazine illustrator, was taken from San Francisco bay Friday.

Except for the linen, it was clothed entirely in black, even to black gloves. Lawrence told the landlady of his boarding house in Berkeley several days ago that he was going to Los Angeles.

A San Francisco pawnbroker said Lawrence had pawned his watch last Wednesday and police believe the money so obtained went to complete the sombre costume.

Practically all farm work in Sweden is done by electricity.
